PLACE & DATE ACQ.

THIS IS UNEVALUATED INFORMATION

25X1

1. The Chemical Combine #2 (Combinatul Chimic No. 2) is situated approximately 12 kilometers south southeast of Arpasul de Jos and five to six kilometers south southwest of Vistea de Sus.
2. The Chemical Combine was constructed by the Germans during World War II. It was partially destroyed during the war and the Soviets completely rebuilt it. The combine consists of several buildings and is situated at the base of the mountains, in the woods.
3. The Soviets also built a small town to house the workers who are working for the combine. It is called Orasul Victoria. The town is located north of the combine.
4. the combine produces oxygen, phosphorous, fertilizer and also explosives. in the fields near Arapsul de Jos it is possible to see smoke coming out of the mountains where the combine is located. Occasionally the smoke is yellowish in color and on occasion it is black.
5. A new railroad spur line was built in 1957 which runs southwest to the Chemical Combine compound. The spur line ties into the main railroad trunk line which runs between Sibiu and Fagaras.
6. In 1958 a new road was under construction which would run from Arpasul de Jos southward into the combine. It also ties in with the main highway which runs east and west from Sibiu to Fagaras.
7. Various types of vehicles travel between the combine and the main highway.
